ARIZONA TO REQUIRE VOTERS TO READ CONSTITUTION IN ENGLISH

(Continued from Page One.)

In favor of it. The Republicans are not. Of course, the Mexican citizens, who with the most largely affected, view it with disfavor, but their wishes have not been consulted. There is good reason to believe the measure will be enacted into law.

The bill provides that any man, in order to qualify for voting, must be able to read the constitution of the United States in English, and that is where it catches a large number of educated Mexicans.

It is estimated that there are 2000 Mexicans who heretofore have enjoyed the privileges of the ballot, but who will be disfranchised if this bill becomes a law.

Republican opposition to the bill is explained by the fact that a vast majority of the Mexicans belong to that party. Since the vote in the entire state is only about 20,000 to 40,000, it will be seen that the elimination of as many as 2000 will cut quite a figure. And this is particularly true in the southern half of the state, where a majority of the Mexicans live.

Democrats say the object of the bill is to maintain the purity of the ballot. Republicans say it is a trick to make the state safely Democratic.

Roller Inspection Bill.

There is much interest in the bill creating the office of state boiler inspector, which is now under consideration in the house. The bill, should it become a law, will, it is said, produce a revenue of \$10,000 a year for the state, with an outlay of \$5,000 to maintain the office. This revenue is to be produced by a tax of \$5 on each steam boiler, and there are said to be 200 in the state.

So, it will be seen, the question of revenue is an attractive one, especially in a state whose expenses are high and whose abilities to meet those expenses are necessarily limited. But there is another matter that possesses almost as much interest in the state as the question of filling the position.

Tom Feeney May Get the Job.

This position will pay \$2500 a year. Also, the inspector will have the right to name an assistant at \$1500 a year, so the job, it will be seen, is not exactly a small one.

The gossip is that Tom Feeney, the Miami labor leader, can have the job if it is created and if he should want it. Feeney was a member of the constitutional convention. He represented the Western Federation of Miners and this federation is coming to be more and more a political power in the state. In the constitutional convention he took a leading part in helping construct the labor section of the constitution. He is presently a labor leader and has a considerable following in various sections of the state. He has expanded his acquaintance and influence by working in nearly all the mining sections.

Just now he is located at Miami and in the employ of the Miami Copper company. It is said that the Miami local of the Western Federation stands ready to consider him for the position. Also, it is said that because of his strength with the miners and labor unions generally, Mr. Hunt is inclined to view his candidacy, should it be announced, with extreme favor.

State Mine Inspector.

Then there is another state office under consideration, and that is the office of state mine inspector. For this place Jack McVey, also of Miami, is an avowed candidate and is looking up prominently. He, also, is a federation man and has the endorsement of the Globe and Echo localities.

The passage of the board of control bill has been recommended by the committee of the whole of the house and its passage is likely to occur within a short time. This bill makes the governor, secretary of state, treasurer, auditor and chairman of the corporation commission members of this board, which has practically absolute control of all the state institutions.

Among other things, this bill gives to the board control of all prison matters; and its effect would be to deprive the governor of a large part of his authority, as under the present law he is practically supreme in the management of prison affairs. The bill is far from being popular with Mr. Hunt, as it would interfere with his scheme of prison reform, but advocates of the measure say he would hardly dare veto it.

Weights and Measures.

The weights and measures bill has been sent back to the committee for repairs. The object of the measure is to have a schedule of fees attached to the bill providing for changes in court practice in order to expedite the

ROOSEVELT'S REQUEST REFUSED

Declare They Will Vote for Him in Spite of All Protests.

Boston, Mass., May 2.—The refusal of the Republican delegates-at-large to accept Col. Roosevelt's decision today that they should vote for president Taft at the Chicago convention, although elected as Roosevelt delegates, has further complicated the situation arising from the state primaries.

The situation is acknowledged by party leaders to be without parallel in the history of the commonwealth.

Although the Republicans of the state selected president Taft as their candidate for re-election by a majority of 2000 over Col. Roosevelt on the presidential preference ballot, at the same time they elected as delegates, though elected as Roosevelt delegates, have in effect pledged to a decisive vote the entire slate of eight delegates-at-large pledged to the former president. Col. Roosevelt secured 10 delegates in the district elections, and President Taft secured nine districts, so that Taft and Roosevelt each have 18 delegates from the state to the national convention.

Similar Case With Democrats.

A similar situation was created on the Democratic ballot. Speaker Champ Clark, who had no pledged delegates on the ticket, won a two to one victory over Governor Wilson in the presidential preference contest. At the same time delegates at large pledged to governor Foss of Massachusetts, were elected to attend the Baltimore convention, though the name of Foss did not appear in the presidential preference column.

Will Ask Recount.

Roosevelt followers have announced their intention of asking a recount in the eighth district, while the Taft men will do likewise in the ninth, on account of the closeness of the vote.

In his request to the delegates at large, Col. Roosevelt declared it his wish to abide by the will of the people, and that, therefore, the delegates, though elected as pledged delegates, were to vote for Taft, who had received the presidential preference vote. One by one the delegates as they were called to the platform pledged to do so under no circumstances would they cast their ballots other than as they had been pledged.

Urges Seoured Wool Duty.

The state senate today addressed a memorial previously passed by the house, to congress asking for a specific duty of 20 cents per pound on secured wool with allowance for shrinkage and a corresponding duty on manufactured wool. In both houses all the Republicans in the senate and all the Democrats except one, and in the senate all the Democrats except six voted for it.

The senate tabled bills providing for election of women in community property, for the payment of wages in cash or check, and payable, it passed bills to prohibit deficits by officials except for clothing and food in penal and charitable institutions, a code fixing the fees to be charged by the secretary of state and several lesser measures.

CONGRESS WILL PROBE MEAT TRUST

(Continued from Page One.)

posed congressional investigation of the bureau of animal industry in relation to the meat inspection law, representatives of the livestock interests of the country are on their way to Washington.

Representative Nelson of Wisconsin, has introduced a resolution demanding the investigation and the livestock men will be heard. A hearing which the house committee on expenditure in the agricultural department will give to Mr. Nelson on May 3. Representative Nelson alleges that the bureau of animal industry, through private circulated instructions in regard to the enforcement of the inspection law, has made the meat inspection law practically worthless.

He alleges, among other sensational charges, that a large number of carcasses partially diseased are permitted to go upon the market after the diseased portions have been removed.

UNDERWOOD CLAIMS ALABAMA IN RACE FOR PRESIDENT

Atlanta, Ga., May 2.—Oscar Underwood of Alabama is Georgia's choice for the Democratic nomination for president. Practically complete but unofficial returns, compiled up to midnight last night indicated that he carried 10 of the 14 counties in the state and that he had a majority over Governor Wilson.

The names of Champ Clark and Jackson H. Hamilton also appeared on the ballot but they received a comparatively small vote.

Underwood's majority means that he will have Georgia's 20 delegates in the national convention. The state Democratic convention will be held May 14 to ratify the action of the primary.
